WEAR-GUARD 315 is a decorative mortar system that consists of a proprietary blend of UV stable colored aggregates and/or recycled colored glass. It is the perfect choice in areas that require a decorative, heavy duty flooring system. Areas that would normally receive terrazzo or marble can be finished with 315 without loss of decorative flair or performance and at a considerable value..

COMMON APPLICATIONS

This proprietary flooring system is typically applied over clean prepared concrete. Specific applications include, but are not limited to: airports, hotel and office building lobbies and corridors, high end retail spaces, schools, health care facilities and hospitals.
